Education

Master of Computer Application (MCA)

Swarnandhra College of Engineering And technology

CGPA:8.19/10

Nov 2022 – June 2024

Narasapuram, Andhra Pradesh

Bachelor's Degree (Bsc)

Sri Y.N.College

CGPA:7.09/10

June 2019 – May 2022

Narasapuram, Andhra Pradesh

Professional Training

Java Fullstack

Codegnan Destination

July 2024 -Ongoing

Hyderabad, Telangana

Technical Skills

Languages: Java, Html, Css, Javascript, Reactjs, SQL

Developer tools: VS Code,Eclipse

Projects

Comparative Analysis Of Liver Diseases By Using Machine Learning Techniques | *Machine Learning* **June 2024**

- Many persons are suffering from liver disease, but they don't know it. The identification of liver diseases in the early stage helps a patient get better treatment.
- If it is not diagnosed earlier, it may lead to various health issues. To solve these issues, physicians need to examine whether the patient has been affected by liver disease or not, based on the multiple parameters.
- In this project, we classify the patients who have liver disease or not by using different machine learning algorithms by comparing the performance factors and predicting the better result. The liver dataset is retrieved from the Kaggle dataset.

Staff Management System | *HTML,CSS,MySQL*

June 2023

- Staff Management System is an application based system, having two applications developed, one for employers to manage staff details and another for staff to mark their Attendance.
- However, in India it is found that many small scale industries use pen and paper to keep a record.
- The Staff Management System Project introduces a transformative solution for organizations seeking efficient employee information management

Achievements

- Hackerrank SQL Certification
- completion of Java course by Intellipaat
- Completion of HTML,Css-Spoken Tutorial by IIT Bombay

Skills And Abilities

- Hardworking
- adaptable to any environment
- Honest and self-motivated
