Career Objective

- To be placed in a company in where I can use my technical skills and leadership qualities to the upliftment of the company and personal growth.

Education

Master of Computer Application (MCA)   **Nov 2022 – June 2024**
Swarnandhra College of Engineering And technology   *Narasapuram, Andhra Pradesh*
CGPA:8.19/10

Bachelor's Degree (Bsc)   **June 2019 – May 2022**
Sri Y.N.College   *Narasapuram, Andhra Pradesh*
CGPA:7.09/10

Professional Training

Java Fullstack   **July 2024 -Ongoing**
Codegnan Destination   *Hyderabad, Telangana*

Technical Skills

Languages: Java, Spring, Html, Css, Javascript, MySQL
Developer tools: VS Code,Eclipse

Projects

Comparative Analysis Of Liver Diseases By Using Machine Learning Techniques | *Machine Learning*

· Many persons are suffering from liver disease, but they don't know it.The identification of liver diseases in the early stage helps a patient get better treatment.
· If it is not diagnosed earlier, it may lead to various health issues. To solve these issues, physicians need to examine whether the patient has been affected by liver disease or not, based on the multiple parameters.
· In this project, we classify the patients who have liver disease or not by using different machine learning algorithms by comparing the performance factors and predicting the better result. The liver dataset is retrieved from the Kaggle dataset.

Employee Management System | *Java, Spring Boot, MySQL, JSP*

· Built a CRUD web application to manage employee data.
· Used Spring Boot with MVC pattern and integrated MySQL database.
· Implemented basic login using Spring Security.
· Designed JSP pages for add, update, and delete operations.

Achievements

· Hackerrank SQL Certifiction
· completion of Java course by Intellipaat
· Completion of HTML,Css-Spoken Tutorial by IIT Bombay

Skills And Abilities

· Hardworking
· adaptable to any environment
· Honest and self-motivated
